CAREER OBJECTIVE

Web developer with an ever-growing knowledge and passion for JavaScript as well as a proven ability to adapt in both self-starting and collaborative environments while staying focused on achieving high-quality results under strict deadlines. My ability to adapt to any situation allowed me to create successful medical scribe programs for any specialty or EMR software I encountered. I have recently completed a Full-Stack Web Development course through the University of Pennsylvania and am eager to further my knowledge through personal projects and professional work.

WORK EXPERIENCE

Scribe Ambassador

Scribe America

📅 January 2020 - September 2021   📍 Multiple Locations

- Worked at sites around the country on-boarding new physician clients with a 100% success rate.
- Created training programs for new medical scribes in numerous medical specialties and EMR software with a 100% training completion rate.
- Secured long-term contracts with multiple specialty clinics through my on-boarding work.
- Required to learn and master the workflow of multiple clinics and specialties around the country in a weeks time.

Medical Scribe

Scribe America

📅 April 2017 - January 2020   📍 Woodbury, NJ
